**June 23-26, 2025 - 9 a.m. to 5 p.m.**

**\$275 per student\***

Come discover the science and software behind cosmic light shows at the Cernan Earth and Space Center. Throughout this four day camp, students will explore light, color, and of course, lasers. Each camper will learn to use Pangolin QuickShow software to create, edit, and synchronize laser visuals to music of their choice. The last day of camp will feature a laser showcase in the Cernan Center Planetarium where these young producers will premiere the results of their hard work to friends and family!

• Laptops will be provided. • Meals are not provided. • Students are expected to provide their own lunch and beverages.

\*All times, dates, costs and locations are subject to change.
